LEDVANCE

OSRAM 

FUNCTIONAL LUMINAIRES 2025/26

LEDVANCE is a licensee for the product trademark OSRAM for lamps & luminaire products in general lighting.

A warm, intimate photograph of a man and a woman sitting closely together on a couch. The man, with a beard and short brown hair, is wearing a teal polo shirt and holding a white mug. The woman, with dark hair, is wearing a plaid shirt and has her head resting on his shoulder, smiling. They are both looking out a large window to the right, where bright, golden sunlight is streaming in, creating a soft, hazy atmosphere. The background shows a glimpse of a modern interior with white walls and a wooden chair.

LEDVANCE

POWER THROUGH LIGHT

A STRONG PARTNER IN THE LIGHTING INDUSTRY

LEDVANCE is a prominent player in the lighting industry, known for its innovative lighting products and smart, interconnected lighting solutions. Drawing from our comprehensive understanding of the general illumination market, current technologies, and evolving customer demands, we are committed to meeting the specific needs of both direct and indirect customers.

As a reliable local partner, we take an active role in supporting your efforts to impress customers with high-quality, long-lasting lighting concepts. Our aim is to help boost your lighting sales by offering attractive, user-friendly, and intelligent products.

Together, we can collaboratively shape the future of light – with agility, courage, speed, and flexibility. Join us on this journey as we pave the way towards a brighter tomorrow.

OUR STRENGTHS ARE YOUR ADVANTAGE

COOPERATIVE

As a dedicated and collaborative partner, LEDVANCE boasts a vast, worldwide sales team and over a century of experience, ensuring we stand by your side at all times.

VERSATILE

Modern, smart, decorative, functional, robust and practical – our extensive portfolio meets customer requirements in all categories and virtually every area of application.

SALES-BOOSTING

Attract attention, encourage purchases. We offer targeted support for your sales with creative, pre-tested marketing concepts.

CARING

We are committed to contributing to a greener planet by reducing CO₂ emissions and waste through sustainable products, solutions and processes. We empower our customers to use light more efficiently to save energy and reduce their environmental footprint.

UNIQUE

Fresh, dynamic, high-quality and bold – we know at an early stage what interests customers and where lighting trends are heading. LEDVANCE is unmistakably LEDVANCE.

INNOVATION MEETS TRADITION

We embody progress and the passion to shape the future of lighting actively. By blending our courage to explore new paths with our experience from more than 100 years of lighting expertise, we lead the way forward.

ALL IN ONE

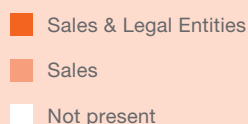

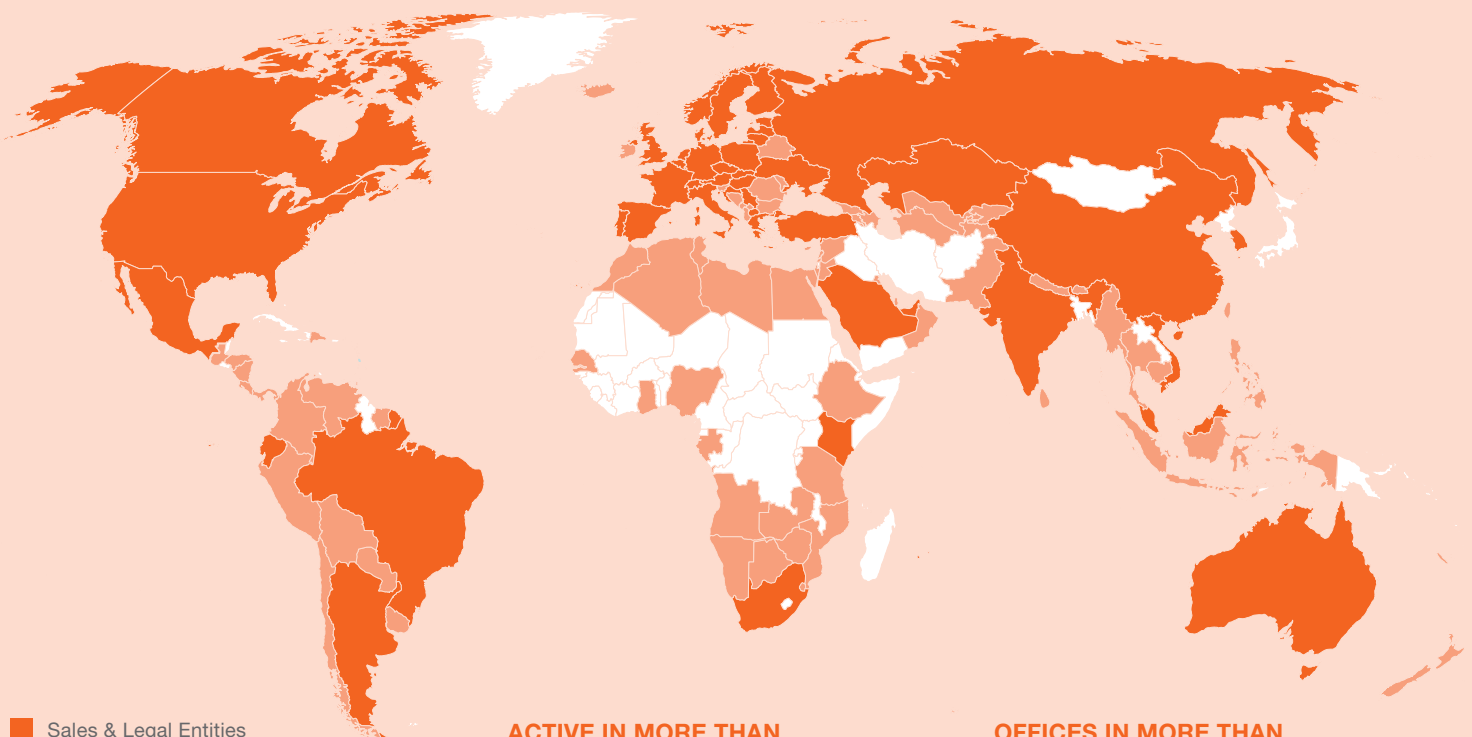

At LEDVANCE, we've got everything you need from a single source – LED luminaires, lamps, and Smart Home products. We offer you a wide range of innovative and market-driven solutions, setting new trends along the way.

FIRST-CHOICE PARTNER

As the perfect strategic ally, we offer an extensive portfolio, a robust sales network, and unparalleled global market access to fulfill all your requirements.

GLOBAL PRESENCE

ACTIVE IN MORE THAN
140 COUNTRIES

50 COUNTRIES

SUCCESSFUL WITH OSRAM PRODUCTS FROM LEDVANCE

As an exclusive licence partner, LEDVANCE offers all its general lighting solutions in the well-known OSRAM brand, creating even greater potential and generating even higher sales.

MAXIMUM BRAND AWARENESS: LIGHT MEANS OSRAM

OSRAM is the ultimate lighting expert, setting standards in lighting technology around the world for well over 100 years and epitomising quality, efficiency and progressive ideas.

INNOVATION AND TRADITION: THE CORNERSTONE OF YOUR SUCCESS

The licencing partnership with OSRAM allows LEDVANCE to offer you the best of both worlds – a well-known brand, innovative, sustainable products and a reliable partnership.

MANY PRODUCTS, ONE SUPPLIER: MORE THAN 1,500 NEW OSRAM-BRANDED PRODUCTS

LEDVANCE offers a huge selection of OSRAM-branded luminaires, lamps and smart solutions – anything from decorative luminaires and work lights to outdoor lighting. And everything from a single source.

► OSRAM-BRANDED LIGHTING SOLUTIONS. A STRONG BRAND THAT IS THE KEY TO YOUR SUCCESS.

BROUGHT TO LIGHT: OUR NEW PACKAGING

Thanks to clear brand allocation, concise product information and graphic categorisation, customers can instantly find the right OSRAM product – regardless of placement.

BAND WITH OSRAM LETTERING

UNDERCABINET LUMINAIRES

Discover our convenient and easy-to-use undercabinet luminaires that brighten your shelves, cupboards and kitchen cabinets while adding style and functionality. Designed to blend seamlessly into your living spaces, all our undercabinet luminaires offer a made-to-measure lighting solution. Experience a seamless fusion of practicality and elegance, ensuring effortless management at your fingertips.

LEDVANCE introduces innovative luminaires in OSRAM brand designed to provide you with perfect lighting at every stage of your life, featuring durability, intelligent control, and exceptional versatility. With their sleek design and versatile functionality, these luminaires seamlessly integrate into your home's interior, enhancing both style and practicality. Let our innovative technology inspire you to effortlessly craft an atmosphere that not only illuminates but enriches your daily life, turning your home into a sanctuary of light and comfort.

SMART⁺ WIFI UNDERCABINET SLIM

Elevate your space with smart, slim undercabinet lighting. Effortlessly set the perfect mood and brightness for every occasion.

- Versatile lighting: Slim undercabinet luminaire offers multiple combinations for flexible and functional illumination in all indoor areas.
- Individual light adjustment: Tuneable white function lets you set the ideal ambience with colour temperatures ranging from warm (2,700 K) to cool daylight (6,500 K).
- Smart control: Easy management via SMART⁺ App or voice control using Google Assistant and Amazon Alexa.
- Flexible mounting: Quick and simple installation with adhesive strips or screws.
- Expandable: Available in various lengths and extendable with up to two additional 50 cm units for customised lighting solutions.

LINEAR ANGLE FRAMELESS SENSOR

Seamless lighting precision for every corner of your home.

- Simple: Low-voltage light for DC operation with external driver, ideal for installation in corners to optimally illuminate the room.
- Adjustable: Colour temperature can be adjusted in three stages to create the desired lighting atmosphere.
- User-friendly: Switching on and off and colour changes triggered by movements up to 6 cm in front of the infrared motion sensor.
- Practical: Service life of up to 30,000 hours, made of aluminium and polycarbonate for long-lasting and homogeneous light distribution.
- Versatile: Perfect where targeted lighting is needed, e.g., in kitchens, living areas and shelves. The LED is not replaceable.

A slim, white LED light strip is mounted under a wooden cabinet. The light is on, casting a warm glow. Below the light, a white ceramic bowl with a green and blue floral pattern is filled with several bright orange oranges. The background is a wooden wall.

CABINET LED SLIM SENSOR

Instant brightness, effortless control – light up your space with a simple gesture.

- Intuitive control: Turn on and off with hand motion in front of the sensor for contactless operation.
- Infinitely dimmable: Brightness can be adjusted by covering the sensor to create desired lighting mood.
- Slim design: Slim aluminium housing integrates discreetly into various applications and offers a modern look.
- Simple installation: Mounted easily on almost any surface using included adhesive strips or screws.
- Application areas: Ideal for shelf, undercabinet, and workspace lighting, bringing bright, focused illumination to kitchens, living areas, and display cabinets.

LINEAR LED FLAT SENSOR USB

Illuminate your home with our innovative undercabinet luminaire, designed for flexibility and convenience.

- Long life: Enjoy up to 25,000 hours of use while saving on energy costs.
- Mobile use: The rechargeable battery allows for both portable and stationary use, with easy USB recharging for continuous, flexible lighting.
- Motion sensor: An integrated PIR sensor allows for contactless on/off switching, providing hands-free operation and enhanced convenience.
- Versatile: Ideal for kitchens and other undercabinet applications, this light adapts to a variety of settings and uses.
- IP20 protection: Suitable for kitchens and living rooms, this light provides finger protection against live components but is not safeguarded against water or moisture.

BATTEN LUMINAIRES

Discover the practical brilliance of batten luminaires, designed with precision to meet the demanding needs of storerooms, home workshops, kitchens, and undercabinet areas. Engineered for superior functionality, these LED batten luminaires ensure your workspace is brightly illuminated, providing the clarity and focus required for detailed tasks. Whether you are organising tools, working on intricate projects, or simply brightening up a room, these luminaires deliver consistent, high-quality light that enhances visibility and productivity.

Durable, energy-efficient, and easy to install, batten luminaires are the reliable choice for anyone who values both performance and efficiency in their lighting solutions.

LED SENSOR BATTEN

- Enhance your space with sleek, reliable batten lights where efficiency meets practicality.
- Motion sensor: The integrated PIR sensor enables contactless on/off switching.
- Long life: Designed for longevity, they offer up to 50,000 hours of continuous use.
- Energy saving: Significantly saves energy compared to a T5 fluorescent lamp.
- Versatile: Available in various lengths, these lights deliver warm white light (3,000 K), ideal for storerooms, garages, home workshops and undercabinet areas.
- IP20 protection: Designed for indoor use, providing essential protection against accidental contact with live components.

LED POWER BATTEN

Powerful performances meet simple installation for your everyday tasks.

- Lighting: Luminous flux from 1,260 lm up to 5,100 lm, offering bright and uniform illumination. Available in warm white (3,000 K) and cool white (4,000 K) to match different room atmospheres.
- Robust: Robust steel housing combined with an opal polycarbonate diffuser for even and glare-free light distribution.
- Energy-saving: Modern LED technology provides high luminous efficacy and replaces conventional T8 fluorescent lamps.
- Installation: Tool-free connection with included mounting brackets for effortless ceiling or wall mounting.
- Application: Ideal for kitchens, work areas, corridors, staircases, cellars and general interior lighting in workshops and technical rooms.

LED SWITCH BATTEN

LED Switch Battens combine easy handling, modern efficiency, and flexible installation to deliver practical lighting solutions for a variety of indoor areas.

- Modern: Provides a lighting solution for undercabinet applications and workspaces.
- Energy efficient: Offers high brightness with reduced power consumption compared to conventional lights.
- Versatile: Simple installation and flexible arrangement for various effective lighting applications.
- Robust: Durable plastic housing ensures long service life and reliable performance.
- Efficient: LED technology guarantees minimal energy use and helps reduce energy costs.

TUBEKIT®

Flexible, practical, and reliable – TUBEKIT brings powerful lighting wherever you need it most.

- Efficiency: Provides powerful, clear illumination with low energy consumption and high luminous efficacy.
- Installation: Quick and easy set-up with included screws, dowels, brackets, and hooks for versatile use.
- Design: Durable polycarbonate housing with clip-in technology for secure mounting and optional hook suspension for mobile applications.
- Areas of application: Ideal for kitchens, workshops, furniture integration, corridors, and entrance areas.
- Longevity: Long service life of up to 30,000 hours and 15,000 switching cycles, with sustainable mercury-free LED technology.

DAMP-PROOF LUMINAIRES

Illuminate your moisture-prone areas with our innovative DAMP-PROOF LUMINAIRES designed for reliable performance and durability. Ideal for cellars, garages, and other challenging environments, these luminaires provide bright, consistent light where it's needed most.

Built with robust materials and a moisture-resistant design, they deliver reliable illumination that stands up to the demands of daily use. Whether lighting up a storeroom, laundry area, or workshop, these luminaires offer long-lasting brightness and energy efficiency, ensuring safety and visibility in every corner.

SUBMARINE SENSOR

Light up challenging spaces effortlessly – Submarine Sensor luminaires combine rugged protection with smart motion control for energy-efficient brightness.

- Energy-saving technology: Durable LED solution offering high performance with reduced energy use.
- High protection: IP65-rated for dustproof and water-jet resistance, ensuring reliable operation in tough conditions.
- Smart motion sensor: Microwave sensor with adjustable detection range for automatic and efficient lighting control.
- Simple assembly: Fast installation thanks to optimised clip spaces and an easy-to-open compartment.
- Versatile use: Ideal for garages, cellars, workshops, warehouses, and other moisture-prone spaces.

SUBMARINE RECYCLED PLASTIC

Built tough for demanding settings, this luminaire delivers reliable, energy-efficient lighting.

- Sustainable: Constructed from 50% recycled plastic.
- Pleasant lighting: Cool white colour temperature offers a bright and unobtrusive atmosphere.
- Long life: Lasts up to 40,000 hours, ensuring durability and longevity.
- Versatile: Ideal for garages, workshops, laundry areas, thanks to its robust, damp-proof design.
- IP65 protection: Resistant to dust and water jets, suitable for durable indoor and outdoor use.

A man is working on a bicycle in a garage. The garage has a wooden ceiling with exposed rafters and a brown pegboard wall. Two long, rectangular, silver submarine-style lights are mounted on the ceiling. The pegboard is covered with various tools, including wrenches, pliers, hammers, and a level. A workbench is visible with a green toolbox, a blue toolbox, and other tools. A bicycle is in the foreground, and a child is partially visible on the left. The text 'SUBMARINE THROUGH-WIRING' is overlaid on the image.

SUBMARINE THROUGH-WIRING

Streamline your installation process with rugged, moisture-proof lighting – built for durability, fast wiring, and consistent performance.

- Energy-saving technology: Durable LED light offering high energy efficiency and reliable long-term operation.
- High protection: IP65-rated for dustproof and water-jet resistance, perfect for demanding environments.
- Pre-mounted through-wiring: Equipped with factory-installed wiring and kit for quick and easy connection.
- Quick installation: Tool-free connection and easy housing opening for fast wall and ceiling mounting.
- Versatile use: Ideal for garages, cellars, warehouses, and other moisture-prone indoor areas.

SUBMARINE INTEGRATED

Resilient lighting built to withstand any challenge, delivering bright performance in demanding environments.

- Light output: Bright and uniform illumination with up to 4,000 lm and 4,000 K colour temperature for clear visibility.
- Protection class: IP65-rated for excellent resistance to dust and water jets, perfect for demanding spaces.
- Installation: Tool-free mounting system for fast, easy, and flexible installation on walls or ceilings.
- Material: Robust polycarbonate housing in grey, built to withstand impacts and harsh conditions.
- Dimensions: Slim and space-saving design, available in lengths of 590 mm and 1480 mm for discreet integration.

SUBMARINE INTEGRATED SLIM VALUE

Slim and subtle in form, strong in performance – made to master even the most demanding spaces.

- Performance: Energy-efficient 10 W LED technology ensures strong, durable lighting even in challenging environments.
- Light intensity: Delivers 900 lm at 4,000 K, producing a bright, clear cool white light for optimal visibility.
- Protection: IP65-rated against dust and water jets, perfect for use in cellars, garages, workshops, and storage rooms.
- Design: Slim and robust polycarbonate housing with only 35 mm height for discreet, space-saving installation.
- Installation: Fast and simple tool-free connection with mounting equipment included for walls and ceilings.

SUBMARINE

When the environment gets tough, SUBMARINE stays bright – powerful protection and dependable illumination.

- Light: Neutral white light (4,000 K) with lumen outputs from 700 lm to 3,800 lm for functional, even lighting.
- Robustness: IP65-rated against dust and water, with durable ABS and polycarbonate housing.
- Installation: Optimised space for mounting brackets and tool-free access for fast lamp changes.
- Areas of application: Ideal for cellars, garages, warehouses, and other damp interior spaces.
- Longevity: Up to 30,000 hours' service life and 100,000 switching cycles for reliable operation, energy-efficient LED tube included.

LED BULKHEAD

Durable lighting that combines reliable performance, robust construction, and easy installation for both indoor and sheltered outdoor areas.

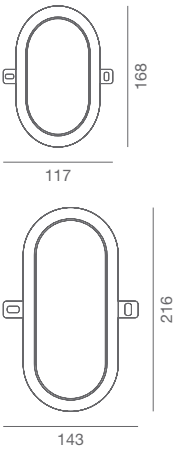

- Efficient illumination: 840 lumens of bright, neutral white light at just 11 watts for energy-efficient performance.
- High protection: IP54 rating makes it ideal for damp, dusty, or sheltered outdoor environments.
- Robust: Durable polycarbonate housing rated IK06 for excellent impact resistance and long-term reliability.
- Installation: Compact and lightweight for easy mounting on walls or ceilings in a wide range of locations.
- Reliable operation: Designed for consistent performance with screw terminal connection and a temperature range of -20 to +40 °C.

WORKLIGHTS

OSRAM worklights are designed to excel in demanding work environments, offering versatile and powerful lighting solutions for construction sites, workshops, and other professional settings. With options such as tripod-mounted lights and portable battery-powered units, these worklights ensure optimal illumination for any task, even in challenging conditions. Built with durable materials and featuring adjustable settings, they provide reliable performance to enhance visibility and safety across various job sites. Light up your work, light up your success.

A man with dark hair and glasses, wearing a red and blue plaid shirt and grey trousers, is kneeling outdoors at dusk. He is focused on working on the engine of a vehicle, using a yellow-handled screwdriver. To his right, on the ground, is a red portable LED worklight with a flexible neck and a bright light panel. The background shows a blurred landscape with trees and a fence under a warm, orange-hued sky.

LED WORKLIGHT BATTERY R-STAND

No socket? No problem. This rechargeable work light brings powerful illumination wherever your next task takes you.

- Flexible lighting: Swivelling lamp head for flexible light alignment to illuminate work areas.
- Long battery life: Operating time up to 4 hours on battery power without frequent recharging.
- Rechargeable: USB-cable rechargeable battery enables eco-friendly use without expensive, hard-to-dispose batteries.
- Energy efficient: Saves up to 80% energy compared to conventional halogen lights.
- Versatile use: Ideal for garages, basements, workshops or renovations, anywhere without fixed power supply.

WORKLIGHT VALUE BATTERY POCKET

Whether for camping or other outdoor adventures, the handy LED work light with battery operation always provides the perfect lighting.

- Efficient light: Pocket-sized worklight powered by batteries, emitting cool white light (6,500 K).
- Varied: The LED worklight has a step-dimming function, making it suitable for different projects.
- Versatile: The robust LED worklight has multiple areas of application such as crafts, construction, industry, car repairs, garages, basements and outdoors.
- Very practical: The worklight is handy and versatile. Offering portability due to its small size and USB charging function thanks to integrated power bank.
- IP54 protection: Suitable for both indoor and outdoor use, providing protection against dust ingress and splashing water from all sides.

WORKLIGHT VALUE BATTERY PANEL

A light that adapts to your needs and can be taken anywhere thanks to its integrated power bank.

- Efficient light: Battery-powered worklight with cool white light (6,500 K) and uniform light distribution thanks to its panel shape.
- Long performance: Comes with a USB charging function via an integrated power bank, allowing for independent operation without mains power.
- Versatile: Robust LED worklight ideal for crafts, construction, industry, car repairs, garages, basements, and outdoor applications.
- Easy portability: Compact and lightweight design for convenient transport and versatility.
- IP54 protection: Suitable for indoor and outdoor use, providing complete protection against dust ingress and splashing water from all directions.

WORKLIGHT ESSENTIAL BATTERY PANEL

Reliable, flexible, and ready for any task, the WORKLIGHT ESSENTIAL BATTERY PANEL provides powerful and customisable light wherever you need it.

- High quality: Durable polycarbonate housing and diffuser deliver impact-resistant performance for tough environments.
- Practical: IP54 protection ensures resistance against dust and splash water for reliable use in demanding areas.
- Customisable: Three-stage dimming allows easy adjustment of light intensity to suit different tasks.
- Sustainable: Rechargeable battery via USB-C provides up to five hours of runtime at 50% brightness and three hours at full power.
- Versatile: Ideal for targeted lighting needs during renovations, garage work, cellar setups, and workshops.

WORKLIGHT PANEL

Wide-angle brightness for precision tasks – this compact panel light ensures strong, steady illumination where you need it most.

- Flexible lighting: Tiltable panel head enables targeted light direction for a range of workspaces.
- Direct network connection: AC connection ensures stable power supply and uninterrupted lighting during use.
- Work light for indoor: Ideal for interior applications such as painting work with high brightness.
- Energy efficient: Saves up to 80% energy compared to conventional halogen work lights.
- Homogeneous lighting: For uniform illumination with minimized glare, keeping the work environment pleasantly lit.

WORKLIGHT R-STAND SOCKET

Power and light combined – with the dual-function worklight for smart, safe jobsite performance.

- 2-in-1 design: Bright LED worklight with integrated dual sockets (up to 3000 W total load).
- Protected power: Sockets feature self-closing covers for added outdoor protection.
- Separate control: Built-in switch controls the light only – sockets remain continuously powered.
- Custom lighting: Adjustable head with quick-lock mechanism for fast angle adjustment.
- Plug & go: 3 m cable with Type E/F plug for flexible use.
- Reliable outdoors: IP44-rated – ideal for temporary outdoor setups and damp environments.
- Versatile use: Perfect for renovations, garages, basements, and workshops.

WORKLIGHT S-STAND

Work smart with our portable worklight – compact, flexible, and efficient.

- Adaptable lighting: Adjustable worklight with a tiltable head and quick-lock mechanism for fast angle changes.
- Built for tough jobs: Durable housing and lamp head with IP65 protection – resistant to dust and water jets. Plug rated IP44.
- Compact & lightweight: Optimised size and weight for easy handling and transport.
- Energy-saving: Up to 80 % less power consumption compared to halogen worklights.
- Even illumination: Partly frosted toughened glass cover for consistent, glare-free light distribution.
- Ready to go: Includes full mounting and connection accessories plus a 2 m cable with EU plug (Type E/F).
- Versatile use: Ideal for renovations, garages, basements, and workshops.

A young girl with brown hair in a ponytail, wearing a light blue long-sleeved shirt and grey pants, is standing and painting a wall with a roller. The wall has large, abstract patches of blue and green paint. In the foreground, on a wooden floor, is a black and grey worklight on a stand. The worklight has a handle and a light head. A paint tray with blue paint is also visible on the floor.

WORKLIGHT VALUE R-STAND

Work in the light of the Value R-Standard enjoying simplicity and safety.

- Efficient light: Compact worklight with cool white light (6,500 K), powered by a mains cable with an EU plug.
- Varied: Rotatable heads provide customisable light direction.
- Versatile: Durable LED worklight suitable for crafts, construction, industry, car repairs, garages, basements, and outdoor use.
- Easy portability: Handy and lightweight design ensures easy transport and versatility.
- IP54 or IP65 protection: Ideal for indoor and outdoor use, offering complete protection against contact and dust. IP54 protects against splashing water, while IP65 adds extra defense against dust particles that could cause voltage issues.

A photograph of a construction site. In the foreground, a small, round, black and white LED worklight sits on a concrete floor. The background shows a building under construction with brick walls and a wooden beam ceiling. A wheelbarrow and some construction materials are visible in the middle ground.

WORKLIGHT VALUE 360° SOCKET

Experience seamless illumination from every angle and light up your projects effortlessly.

- Efficient light: LED worklight with cool white light (6,500 K), powered by a mains cable with an EU plug.
- Full illumination: Provides 360° lighting and includes two integrated sockets for up to 3,000 W of power.
- Versatile: Sturdy LED worklight suitable for crafts, construction, industry, car repairs, garages, basements, and outdoor use.
- Versatile suspension: Integrated steel hook for 360° hanging.
- IP54 protection: Suitable for indoor and outdoor use, offering full protection against contact, small dust particles, and splashing water from all sides.

A photograph of a construction or renovation site. In the foreground, a silver A-frame step ladder stands on the left. To its right is a small, round wooden stool. The floor is covered in dust and debris, including a pile of broken bricks and rubble on the right. A black worklight with two adjustable heads is positioned on the floor, casting a beam of light. In the background, a wall is being renovated, with some plaster missing and a window frame visible on the right. A black bag and some cables are hanging from a structure on the right wall.

WORKLIGHT VALUE FLEX

Working smart with the two individually adjustable heads of the VALUE FLEX, providing customised lighting for any situation.

- Efficient light: LED worklight with cool white light (6,500 K), powered by a cable with an EU plug.
- Varied: LED worklight with 270° vertical and 180° horizontal rotatable heads. The two heads can be switched independently of each other and offer individually adjustable light.
- Versatile: Robust LED worklight with multiple areas of application such as crafts, construction, industry, car repairs, garages, basements and outdoors.
- Easy portability: Handy and versatile worklight that can be easily transported through its compact lightweight design.
- IP65 protection: Designed for damp indoor locations such as cellars, garages, warehouses and boiler rooms, offering dust and water resistance.

A construction worker and a woman are working on a wall made of white concrete blocks. The worker, wearing a plaid shirt and jeans, is holding a yellow level against the wall. The woman, wearing a white hard hat and overalls, is also holding a yellow level. A battery-powered worklight on a tripod is positioned on the left, illuminating the scene. The background is a dark, textured wall.

WORKLIGHT VALUE BATTERY TRIPOD

Designed to brighten any workspace independently – take lighting anywhere with our portable, battery-powered worklight.

- Versatile: Position this tripod worklight anywhere, ideal for workshops, garages, or cellars without a power connection.
- Adjustable: The light head rotates 360° and swivels 180° for complete space illumination.
- Height adjustable: The tripod extends to 1.8 meters, directing light where it's needed.
- Practical: Equipped with a rechargeable battery, it works without a power source, perfect for renovations or areas without electricity.
- Bright: Provides daylight-bright (6,500 K) illumination, ideal for precise and demanding tasks.

HIGHBAY LUMINAIRES

OSRAM Highbay solutions offer advanced illumination technology that transforms commercial and industrial spaces, delivering exceptional brightness and outstanding energy efficiency. These expertly engineered fixtures provide superior daylight-quality performance in warehouses, industrial halls and retail environments, ensuring optimal visibility in challenging areas with high ceilings.

The innovative Highbay Blade series combines an aerodynamic design with intelligent light distribution to significantly reduce energy consumption, offering fully customisable configurations for demanding large-scale environments. Built for professional durability and designed to excel in commercial applications, they deliver reliable, long-lasting performance that enhances productivity. Elevate your space, accelerate your success.

HIGHBAY UFO

Flood your high spaces with brilliant daylight performance and energy-efficient power built to last.

- Cool daylight: This ceiling light offers a light intensity of up to 15,000 lm or 9,300 lm at 6,500 K, perfect for bright and clear illumination.
- Robust: Designed for durability, ensuring a long-lasting and environmentally friendly lighting solution.
- Installation: Especially suitable for areas with high ceilings, providing efficient coverage and visibility.
- Efficient: Uses high-power LEDs for outstanding luminous efficacy and energy savings.
- Application: Ideal for industrial halls, warehouses, garages, shops, barns, and other large, high-ceiling areas.

HIGHBAY BLADE

Engineered like a blade, designed for precision — Highbay Blade delivers customisable, high-performance lighting for any environment.

- Precise: Adjustable light wings direct illumination exactly where it's needed for maximum flexibility.
- Easy installation: E27 screw thread allows quick and simple installation into standard sockets.
- Powerful: High luminous flux up to 6,500 lm with neutral white 4,000 K light, ideal for work environments.
- Optics: Sturdy black aluminium or plastic housing paired with a glass cover, designed for durability and style.
- Application: Perfect for renovation work, workshops, garages, and even living spaces needing strong, targeted light.

1 The exact terms and conditions can be found at www.ledvance.com/consumer/services/guarantee | 2 Average lifetime in hours | 3 Total luminous flux of the luminaire taking into account the diffuser
4 Total luminous flux of the contained light sources without the diffuser

LET THERE BE LIGHT WHEREVER IT'S NEEDED! LIGHT THAT SELLS ITSELF

With ready-made packages, you can offer your customers a wide range of practical functional lighting solutions. These clever combinations will make your products stand out from the crowd and look great! This is an exciting opportunity to offer your customers something inspiring and useful at the same time.

ATTRACTIVE SHELF DESIGN

A shelf full of ready-made incentives. See a variety of well-engineered and customised functional lighting packages.

Our shelves are eye-catching and perfectly designed to meet the needs of the target audience. Product-specific benefits

and features are explained and functional product samples are displayed to make the products intuitively understandable for your customers.

COMPACT DISPLAYS

Discover our OSRAM POS display range – featuring a fresh new look, updated colors, and modern design elements that bring your products to life.

Our high-quality wooden displays are fully customizable with in-house printing and expertly built to create impressive retail presentations. We also offer a comprehensive selection of cardboard displays – shelves, trays, hooks, and dumpbins to suit every retail environment.

Available in convenient sizes from 1/8 to full pallet (1/1), all displays are delivered fully assembled and ready to use immediately. To enhance customer engagement and significantly increase in-store visibility, displays can be ordered with working electrified samples that showcase your products in action. Both design and production are handled entirely in-house, enabling efficient delivery timelines and maintaining our high quality standards.

SYMBOLS IN THE TABLES

	Fig. no.		Protection class
	Housing colour		Number of switching cycles
	Housing material		Number of lamps included
	Average lifetime in hours		Length l in mm
	Wattage in W		Width w in mm
	Total luminous flux of the luminaire taking into account the diffuser		Height h in mm
	Total luminous flux of the contained light sources without the diffuser		Diameter d in mm
	colour temperature in kelvin		Standard pack in pcs.
	colour rendering index		LED module included
	Ambient temperature range in degrees Celsius		Type of connection
	Beam angle in degrees °
