

LEDVANCE.COM

LEDVANCE

OSRAM 

OUTDOOR LUMINAIRES 2025/26

LEDVANCE is a licensee for the product trademark OSRAM for lamps & luminaire products in general lighting.

A warm, intimate photograph of a man and a woman sitting closely together on a couch. The man, with a beard and short brown hair, is smiling and looking towards the right. The woman, with dark hair, is leaning her head against his shoulder and smiling broadly. They are both holding hands. In the background, a large window lets in bright, golden sunlight, creating a soft, warm glow over the scene. The overall mood is happy and relaxed.

LEDVANCE

POWER THROUGH LIGHT

A STRONG PARTNER IN THE LIGHTING INDUSTRY

LEDVANCE is a prominent player in the lighting industry, known for its innovative lighting products and smart, interconnected lighting solutions. Drawing from our comprehensive understanding of the general illumination market, current technologies, and evolving customer demands, we are committed to meeting the specific needs of both direct and indirect customers.

As a reliable local partner, we take an active role in supporting your efforts to impress customers with high-quality, long-lasting lighting concepts. Our aim is to help boost your lighting sales by offering attractive, user-friendly, and intelligent products.

Together, we can collaboratively shape the future of light – with agility, courage, speed, and flexibility. Join us on this journey as we pave the way towards a brighter tomorrow.

OUR STRENGTHS ARE YOUR ADVANTAGE

COOPERATIVE

As a dedicated and collaborative partner, LEDVANCE boasts a vast, worldwide sales team and over a century of experience, ensuring we stand by your side at all times.

VERSATILE

Modern, smart, decorative, functional, robust and practical – our extensive portfolio meets customer requirements in all categories and virtually every area of application.

SALES-BOOSTING

Attract attention, encourage purchases. We offer targeted support for your sales with creative, pre-tested marketing concepts.

CARING

We are committed to contributing to a greener planet by reducing CO₂ emissions and waste through sustainable products, solutions and processes. We empower our customers to use light more efficiently to save energy and reduce their environmental footprint.

UNIQUE

Fresh, dynamic, high-quality and bold – we know at an early stage what interests customers and where lighting trends are heading. LEDVANCE is unmistakably LEDVANCE.

INNOVATION MEETS TRADITION

We embody progress and the passion to shape the future of lighting actively. By blending our courage to explore new paths with our experience from more than 100 years of lighting expertise, we lead the way forward.

ALL IN ONE

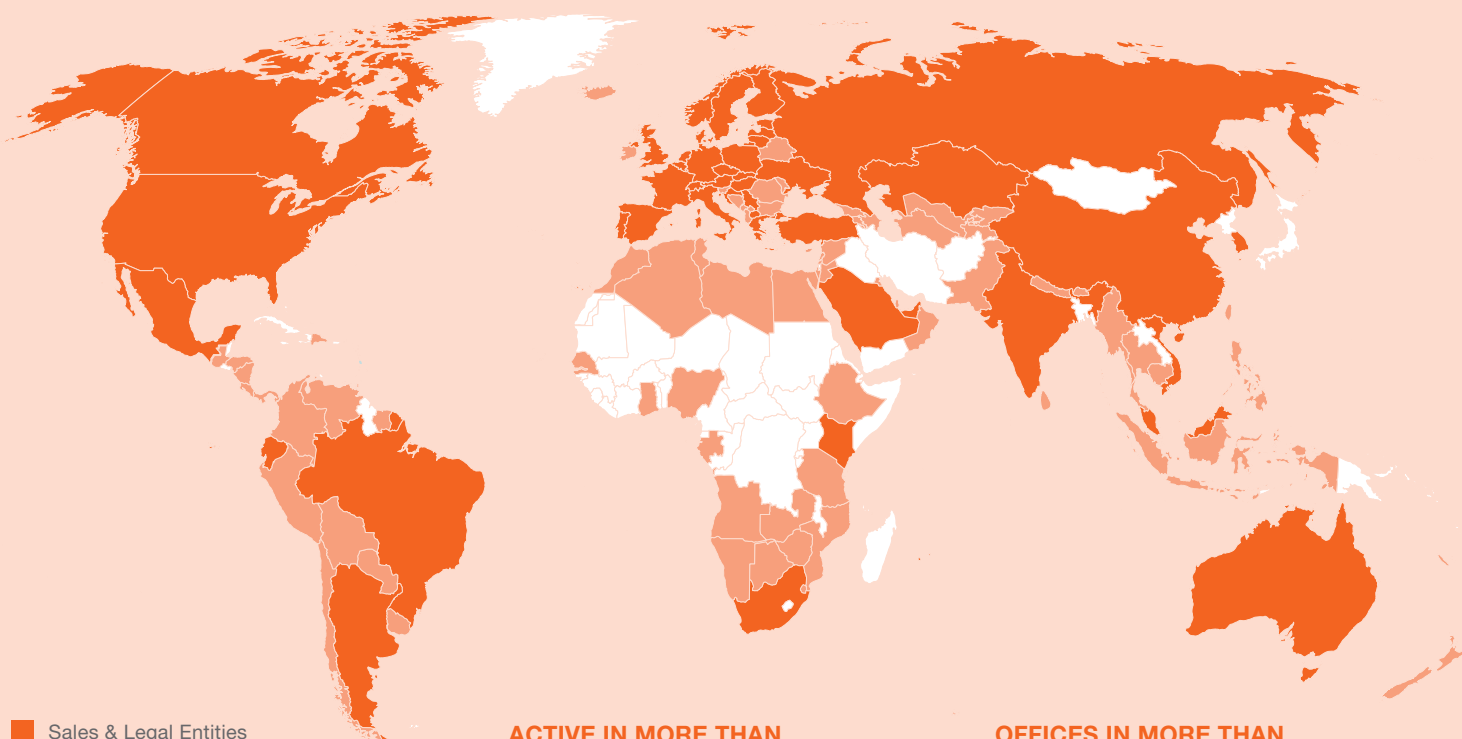

At LEDVANCE, we've got everything you need from a single source – LED luminaires, lamps, and Smart Home products. We offer you a wide range of innovative and market-driven solutions, setting new trends along the way.

FIRST-CHOICE PARTNER

As the perfect strategic ally, we offer an extensive portfolio, a robust sales network, and unparalleled global market access to fulfill all your requirements.

SUCCESSFUL WITH OSRAM PRODUCTS FROM LEDVANCE

As an exclusive licence partner, LEDVANCE offers all its general lighting solutions in the well-known OSRAM brand, creating even greater potential and generating even higher sales.

MAXIMUM BRAND AWARENESS: LIGHT MEANS OSRAM

OSRAM is the ultimate lighting expert, setting standards in lighting technology around the world for well over 100 years and epitomising quality, efficiency and progressive ideas.

INNOVATION AND TRADITION: THE CORNERSTONE OF YOUR SUCCESS

The licencing partnership with OSRAM allows LEDVANCE to offer you the best of both worlds – a well-known brand, innovative, sustainable products and a reliable partnership.

MANY PRODUCTS, ONE SUPPLIER: MORE THAN 1,500 NEW OSRAM-BRANDED PRODUCTS

LEDVANCE offers a huge selection of OSRAM-branded luminaires, lamps and smart solutions – anything from decorative luminaires and work lights to outdoor lighting. And everything from a single source.

► OSRAM-BRANDED LIGHTING SOLUTIONS. A STRONG BRAND THAT IS THE KEY TO YOUR SUCCESS.

BROUGHT TO LIGHT: OUR NEW PACKAGING

Thanks to clear brand allocation, concise product information and graphic categorisation, customers can instantly find the right OSRAM product – regardless of placement.

BAND WITH OSRAM LETTERING

SOLAR LUMINAIRES

Step outside to a world that shines with OSRAM SOLAR LUMINAIRES, where the natural power of the sun meets the ingenuity of eco-friendly innovation to illuminate your outdoor spaces. LEDVANCE presents a curated selection of solar-powered lighting solutions that combine elegance with efficiency, designed to free you from traditional power sources. Experience the fusion of intelligent design and cutting-edge solar technology that promises durability, smart control and versatility.

Our luminaires ensure that your gardens, pathways and architectural features are not just lit, but transformed into vibrant, atmospheric spaces. Compatible with smart devices for easy management, they provide reliable lighting from dusk to dawn on a single charge. With robust protection ratings of IP44 or higher, our designs can withstand the elements, enhancing the reliability and beauty of your outdoor setting.

ENDURA STYLE SOLAR SENSOR DOUBLE CIRCLE

Solar design that makes a statement – stylish, sensor-equipped lighting for entrances, balconies, and patios.

- Design: Solar-powered light with robust stainless-steel housing; ideal for entrances, terraces, or balconies.
- Sensors: Motion and daylight sensor for automatic control; three operating modes for flexible lighting.
- Protection class: IP44 protects against dust and splash water; suitable for covered outdoor areas.
- Installation: Easy-to-install stainless steel housing, resistant to weather influences.
- Light source: Integrated and non-replaceable; LED technology ensures energy-efficient, low-maintenance lighting.

ENDURA STYLE SOLAR SENSOR BOUQUET POST

Where path lighting meets design – elegant solar-powered bollards with motion detection and warm white light.

- Solar operation: LED bollard light with efficient solar module and lithium-ion battery; no power connection needed.
- Installation: Suitable for wall and floor mounting; versatile for garden paths, terraces, or house walls.
- Sensor control: Daylight and PIR motion sensor with three operating modes for custom use.
- Lighting: Warm white light (3000 K) with up to 550 lumens for pleasant path and area illumination.
- Weatherproof: Robust black aluminium housing with IP44 protection and IK03 shock resistance for use in rain and dust.

ENDURA STYLE SOLAR SENSOR FIN WALL

Where sustainability meets intelligent lighting – powerful solar wall luminaire with motion detection and intelligent energy control.

- Solar operation: Bright LED outdoor luminaire with high-efficiency monocrystalline solar panel and long-lasting battery – no wiring required.
- Installation: Quick and simple mounting with included accessories; ideal for entrances, balconies, facades, and general outdoor areas.
- Sensor control: Integrated daylight and PIR motion sensors with housing-matching design; four operating modes for tailored illumination.
- Lighting: Demand-driven warm white LED lighting with reduced light pollution and up to 18 days of operation on a full charge.
- Weatherproof: Durable construction with IP54 protection for reliable performance in various weather conditions.

ENDURA STYLE SOLAR SENSOR SHORE WALL

Intelligent lighting made simple – solar-powered LED outdoor luminaire for modern, energy-conscious living.

- Self-sufficient & sustainable: Powered by an advanced monocrystalline solar module, this luminaire requires no wiring and offers long-lasting performance with minimal environmental impact.
- Flexible use: Perfect for entrances, balconies, terraces, and building facades – delivers reliable illumination exactly where it's needed.
- Quick setup: Hassle-free installation with included mounting hardware – works independently of the power grid.
- Intelligent sensor technology: Integrated PIR motion and daylight sensors blend discreetly into the housing; four lighting modes ensure the right atmosphere from dusk till dawn.
- Optimized lighting: Offers bright illumination with reduced light pollution and a runtime of up to 18 days on a full charge – depending on settings and conditions.
- Built to last: Weather-resistant (IP54) and designed for dependable outdoor operation year-round.

ENDURA STYLE SOLAR SENSOR DOWN WALL

Efficient solar LED outdoor luminaire for lasting performance and flexibility.

- Solar operation: LED fixture with high-efficiency monocrystalline solar module and rechargeable battery – no external power supply required.
- Installation: Easy and fast mounting with included hardware – perfect for entrances, balconies, terraces, and outdoor facades.
- Sensor control: Integrated PIR motion and daylight sensor, color-matched to the housing, for intelligent, needs-based lighting.
- Operating modes: Four selectable options – 100%, 25%, 10% with motion boost, or off with motion-triggered full brightness (30 seconds).
- Lighting: Bright, energy-conscious illumination with reduced light pollution for comfortable and targeted outdoor lighting.
- Performance: Up to 18 days of runtime on a full charge, depending on environmental conditions and selected mode.
- Weatherproof: Durable IP54-rated housing for reliable operation in outdoor conditions.

A photograph of a modern outdoor luminaire mounted on a light-colored, horizontally-slatted wall. The luminaire is a rectangular, box-like fixture with a sliding cover that is partially open, revealing a warm white light source. It is positioned to the left of a large window with a white frame and a patterned curtain. The scene is set outdoors at dusk or dawn, with a dark sky and some foliage visible in the background. The overall aesthetic is clean and minimalist.

ENDURA STYLE SOLAR SENSOR ROBUST WALL

Hybrid-powered outdoor luminaire with intuitive charging and robust design.

- Power options: Dual operation via integrated lithium battery – charges through solar panel or USB-C cable (included).
- Runtime: Up to 1 month of operation on a full charge, depending on mode and environmental conditions.
- Installation: Tool-free wall mounting with sliding bracket – the unit can be effortlessly removed for convenient indoor charging.
- Lighting control: Two intelligent modes:
 1. 100% brightness for 40 seconds upon motion detection (dusk to dawn)
 2. 20% continuous light plus motion-activated boost to 100% for 40 seconds
- Sensor system: PIR motion and daylight sensor, seamlessly integrated into the housing design for demand-based illumination.
- Construction: Rugged aluminium body, IP54-rated for reliable use in outdoor conditions.
- Design focus: Functional and minimalistic with a strong technical appearance – ideal for facades, pathways, entrances, and terraces.

ENDURA STYLE SOLAR SENSOR SINGLE CIRCLE WALL

Smart and compact. This solar wall light delivers powerful design with effortless energy savings.

- Design: Solar-powered light with robust black stainless-steel housing; ideal for entrances, balconies, terraces or other outdoor areas.
- Sensors: Motion and daylight sensors for automatic, needs-based lighting with three modes.
- Protection class: IP44-rated, splash-proof and ideal for sheltered outdoor spaces.
- Installation: Simple wall mount with weather-resistant stainless-steel build.
- Light source: Integrated and non-replaceable; energy-efficient LED with long service life.

ENDURA STYLE SOLAR SENSOR GLOW WALL

This sensor-equipped wall light brings atmosphere and autonomy to your outdoors. Let the sun do the work!

- Can be used without power: Equipped with a solar panel for operation in areas lacking electrical access, featuring an efficient integrated sensor.
- Durable: Offers a significant burn time of 60 times 30 seconds in PIR mode, with a battery recharge time of just 8 hours.
- Long life: The solar wall light has a lifespan of up to 25,000 hours, making it both a long-lasting and energy-efficient solution.
- Versatile: Ideal for various outdoor settings, perfect for illuminating house facades, garages, and entrance areas.
- IP44 protection: Designed for the outdoors, safeguarded against moisture and splash water ingress from all sides.

A man in a light-colored polo shirt and white trousers stands in a garden at night, holding a smartphone up to control a solar floodlight. The floodlight is mounted on a wall above a wooden door and is illuminated. The garden features various plants, including a large potted plant and a tree, and a watering can is on the ground. The scene is lit by the floodlight and ambient night light.

ENDURA FLOOD SOLAR SENSOR

Powerful lighting, no plug required. These solar floodlights deliver performance, smart features and energy independence – even in remote outdoor areas.

- Solar powered: Uses solar energy for sustainable, off-grid outdoor lighting.
- Intelligent sensors: PIR motion and daylight sensors activate light when needed.
- Efficient battery: Lithium-ion battery provides long-lasting performance.
- Quick installation: No wiring required – includes mounting accessories.
- Weatherproof: The LED floodlight is IP65 rated, making it ideal for lighting facades, garages and gardens.

ENDURA FLOOD SPLIT SOLAR SENSOR

Go solar with ease. Flexible lighting power that works anywhere – no wiring, just light where you need it.

- Flexible: Floodlight and solar panel connected by a 5-metre cable, allowing separate, versatile installation.
- Easy to use: Integrated PIR motion detector and daylight sensor switch the light on only when necessary.
- Comfortable: Offers extended setting options for the dimmable sensor, from adjusting the light intensity and light colour to switching it on and off manually
- Environmentally friendly: Operates entirely on solar power – no electricity consumption, fully sustainable.
- Versatile: Ideal for garages, facades, sheds and remote areas without power supply access.

ELECTRIFIED OUTDOOR LUMINAIRES

Discover the benefits of OSRAM Electrified OUTDOOR LUMINAIRES, which combine energy-saving performance, elegant design and practical features for outdoor lighting. Our extensive collection of outdoor lights includes everything from elegant table lamps to powerful floodlights, charming garden lanterns to smart sensor lights and more. Whether you're looking to add a warm glow to your garden paths, a splash of radiance to your facade, or reliable illumination for security, our collection has you covered.

Made from high-quality materials like aluminium and glass, our luminaires are built for durability and consistent performance. Features such as adjustable heads and garden spikes allow for customised illumination, ensuring every corner of your outdoor space is perfectly lit. With IP44 to IP65 protection, they offer reliable weather resistance.

Create a safe, inviting and beautifully lit atmosphere with OSRAM outdoor lighting.

ENDURA STYLE STAN TABLE CCT USB

Light where you want it. A portable companion for balconies, terraces or travel – stylish, weatherproof, and rechargeable.

- Individual lighting: Brightness memory function enables you to set and save your preferred lighting level.
- Flexible choice of position: Portable design allows placement wherever you need it – at home or on the go.
- Versatile: Robust build makes it ideal for a wide range of outdoor uses.
- Protection: Weatherproof construction for safe outdoor use.
- Sustainable: Rechargeable battery reduces the need for disposables and helps protect the environment.

A photograph of a modern outdoor patio at dusk. The patio features a wooden wall with horizontal slats. A rectangular LED luminaire is mounted on the wall, emitting a warm glow. To the right, a large window with light-colored curtains is visible. In the foreground, there is a wooden bench and a table. In the background, a body of water and distant hills are visible under a dark blue sky.

ENDURA STYLE ROBUST WALL USB

Freedom from cables and intelligent illumination – rechargeable outdoor LED luminaire designed for convenience and durability.

- Power source: Integrated lithium-ion battery rechargeable via included USB-C cable, combining eco-friendly autonomy with modern convenience.
- Long runtime: Up to 2 months of operation on a full charge, depending on usage mode and environmental factors.
- Easy installation & maintenance: Quick wall mounting with a sliding bracket that allows the unit to be effortlessly removed for indoor charging.
- Intelligent lighting modes: Choose between full brightness for 40 seconds on motion detection, or a soft 20% constant glow with motion-activated boost for enhanced safety and ambiance (active from dusk till dawn).
- Smart sensor system: PIR motion and daylight sensors integrated in a color-matched housing for precise, demand-driven illumination and reduced light pollution.
- Robust build: Solid aluminium casing with opal polycarbonate diffuser for even, glare-free light and IP54-rated weather protection.
- Charging time: Full recharge within approximately 7 hours ensures readiness for extended outdoor use.
- Complete package: Includes mounting hardware and 1.0 m USB-C charging cable for immediate setup.

The background image shows a modern building facade at night. A square luminaire is mounted on a light-colored wall section between two windows. Below the luminaire, a balcony with a metal railing and a dark lounge chair is visible. The interior lights of the building are on, creating a warm glow. The luminaire itself is a simple square with a white border and a dark center.

ENDURA STYLE SQUARE

Bold and bright. This square-shaped luminaire blends modern design with strong, efficient lighting – available in two stylish finishes.

- Energy efficient: LED technology provides high luminous efficacy with low energy consumption.
- Simple installation: Quick and hassle-free setup with included accessories.
- Bright and functional: Provides powerful light with a minimalist square design.
- Robust housing: Die-cast aluminium body offers excellent resistance and longevity.
- Weatherproof: IP44-rated for outdoor use, perfect for terraces and facades.

A man and a woman are standing on a balcony at night. The man is wearing a grey sweater and the woman is wearing a pink sweater. They are both smiling and looking towards the camera. The balcony has a metal railing and a wall with horizontal wooden slats. A warm, glowing light fixture is mounted on the wall above them. The background shows a doorway leading into a brightly lit interior.

ENDURA CLASSIC POST

A durable post light that combines heritage with versatility and fits perfectly along paths, in gardens and on facades.

- Material: Robust stainless-steel housing with clear glass diffuser provides even lighting and durability.
- Weatherproof: IP44 rating ensures reliable protection against outdoor elements.
- E27 socket: Supports various light sources including LED and smart bulbs up to 60W.
- Installation: Quick floor or wall setup using screw terminals and included mounting materials.
- Versatile: Ideal for decorative or functional lighting across outdoor spaces.

A woman with long brown hair, wearing a blue patterned top, blue jeans, and brown boots, stands with her back to the camera in front of a dark grey door. She is carrying a grey shoulder bag and a large yellow and blue tote bag. To her left is a brick wall with a vertical glass panel. A black cylindrical wall light fixture is mounted on the brick wall, casting a warm glow. The scene is set at night.

ENDURA CLASSIC BEAM WALL

Minimalist. Subtle. Indirect. The light makes a strong impression on facades and entrances.

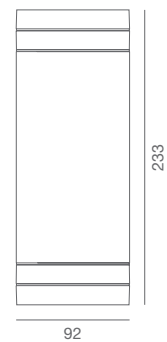

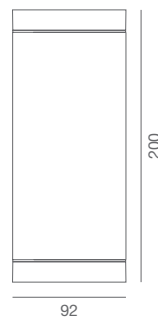

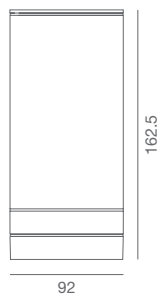

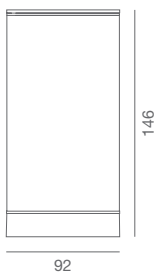

- Design: Sleek aluminium housing with gap ring for visual interest.
- Light source: GU10 socket enables tailored lighting up to 35W.
- Material: Dark grey RAL7016 aluminium offers both style and durability.
- Weather protection: IP44 and IK03 ratings for outdoor performance.
- Installation: Quick to mount with 3-pin terminal; compact dimensions (varies by model) for flexible placement.

A photograph of a modern house at night. A large, leafy tree stands in the foreground on the left. To the right, a house with large glass windows and a balcony is visible. The interior lights of the house are on, showing a kitchen and living area. In the foreground, several small, dark garden spotlights are embedded in the lawn, casting a warm, yellow glow. The sky is dark blue.

ENDURA CLASSIC GARDEN SPOT SPIKE GU10

Accentuate the natural beauty of your garden with our classic spike luminaire, designed for precision and versatility in outdoor lighting.

- Flexible use: GU10 base allows for convenient lamp changes, suitable for both standard and smart bulbs.
- Varied: The luminaire head is adjustable, offering directional lighting to suit your garden's needs.
- Robust Material: Made with high-quality die-cast aluminium and a glass diffuser, perfect for showcasing plants and trees.
- Versatile: A garden spike luminaire that easily positions in any part of your beds and lawns to enhance the landscape.
- IP54 protection: Ideal for outdoor use, moisture-proof thanks to protection against splash water ingress on all sides.

FLOODLIGHTS

Illuminate your outdoor spaces with powerful precision with OSRAM FLOODLIGHTS, engineered to brighten the darkest corners with ease. Combining high performance lighting with a robust design, our floodlights are suitable for a wide range of outdoor applications, each ensuring a safe and well-lit environment.

The addition of SMART⁺ Floodlights within the range brings connectivity and convenience to the forefront, allowing seamless control over lighting intensity and schedules. With their easy installation, energy-efficient LEDs, durable materials, and advanced sensor technology, these luminaires are ideal for security, aesthetic spot lighting, and general outdoor illumination.

Designed with versatility in mind, our floodlights are available in a variety of beam angles and brightness levels, all with high IP ratings for excellent weather resistance. Step into a well-lit world of safety and visibility with LEDVANCE's extensive selection of OSRAM floodlights.

A woman with long brown hair, wearing a blue puffer jacket, a bright yellow scarf, and yellow sneakers, stands next to a silver bicycle. She is positioned under a wooden pergola structure. A square floodlight is mounted on the pergola's beam, casting a warm glow. To the right, a large pile of firewood is visible. In the background, a house with a lit window is partially seen. The overall scene is set at night, with the floodlight providing the primary illumination.

ENDURA FLOOD RECYCLED PLASTIC SENSOR COOL WHITE

Light only when it matters. Reliable sensor floodlights for driveways, entrances or commercial areas.

- Design: Intelligent LED floodlights with integrated motion sensor and IR detection for automatic operation.
- Function: Bright output from 1,000 to 5,000 lumens with adjustable time and lux settings for demand-based lighting.
- Material: Robust aluminium housing with integrated cooling and protective glass or sensor dome.
- Application: Ideal for private or commercial use, from garages and garden paths to loading bays and entrances.
- Efficiency: Energy-saving operation through daylight sensor that prevents unnecessary daytime operation and activates only when needed.

ENDURA FLOOD RECYCLED PLASTIC SENSOR WARM WHITE

Warm welcomes start with light. This sensor-controlled floodlight creates safety and atmosphere wherever you need it.

- Design: LED floodlights in white or dark grey with integrated PIR sensor and warm white 3000K light.
- Function: From 1,000 to 5,000 lumens with motion detection, twilight sensor and adjustable lux/time control.
- Material: Durable aluminium housing with frosted or reinforced glass and integrated sensor module.
- Application: Practical for homes, driveways, gardens, shops and commercial buildings, automatically lights up when needed.
- Efficiency: Sensor control reduces standby power and prevents unnecessary use, saving energy and operating costs.

ENDURA PRO FLOOD SENSOR

For safer surroundings day and night – this smart, rugged floodlight adapts to your needs with powerful, targeted illumination.

- Highly efficient: The powerful sensor spotlight provides bright illumination and increases security in all outdoor areas.
- Flexible: The adjustable lamp head can be individually aligned to illuminate dark corners – for a secure environment.
- Robust: With IP55 protection and IK05 impact resistance, the spotlight withstands all weather conditions for long-term security.
- Simple: Installation is easy and enables security implementation quickly without effort.
- Versatile: Suitable for parking lots, squares, parks or arcades – wherever reliable lighting and safety are needed.

4 Total luminous flux of the contained light sources without the diffuser

A man with a beard and long hair, wearing a dark blue t-shirt and jeans, stands in front of a dark wooden building. He is holding a dark jacket in his left hand and has his right hand on the handle of a dark door. Above the door, a small, modern outdoor spotlight is mounted on the wall, casting a bright light. The building has a dark wooden facade with horizontal slats. To the left of the door is a small potted tree, and to the right is a tall, thin plant. The sky is a deep blue, suggesting dusk or dawn.

ENDURA PRO SPOT SENSOR

Compact but powerful. A modern outdoor spotlight with precise control and durable design for all-weather use.

- Innovative: Modern optical design provides functional outdoor lighting.
- Robust: With impact resistance IK05 and protection class II, the spotlight provides durability and resistance.
- Flexible: Choose between four different settings to adjust lighting according to your needs – from permanent light to motion detection.
- Precise: The adjustable lamp head enables targeted illumination of entrance areas or specific zones for maximum security and visibility.
- Simple: The installation is quick and straightforward, making the lighting immediately usable without effort.

FLOODLIGHT ESSENTIAL SENSOR HIGH WATTAGE COOL WHITE

Brighten big spaces the smart way – with powerful light, adjustable beams and sensor-driven energy savings.

- Efficient light: The high-power floodlight offers a cool white light colour and features an integrated sensor.
- Varied: Offers an adjustable beam angle, allowing the cone of light to be individually set.
- Pleasant lighting: The white satined diffuser provides homogeneous, glare-free illumination – ideal for general use.
- Versatile: Perfect for sports facilities, gardens, courtyard entrances and facades
- Weatherproof: IP44-rated, suitable for outdoor areas, replaces halogen floodlights.

A photograph of a wooden shed with a double door and a floodlight mounted above it, illuminated at night. The shed has a wooden frame and white horizontal siding. The floodlight is a small, rectangular, white fixture mounted on the wall above the door. The door is made of dark wood with a large 'X' pattern. The scene is set outdoors at night, with trees and a dark sky in the background.

FLOODLIGHT ESSENTIAL SENSOR COOL WHITE

Reliable outdoor lighting that only switches on when needed – efficient, durable and ideal for everyday security lighting.

- Description: This LED floodlight with motion detector emits a cool white light (4000K).
- Lifetime: The integrated LED module has a life of up to 25,000 hours.
- Easy installation: Quick and easy to mount on the wall or ceiling.
- Application: Built-in IR daylight and motion sensor switches on light only when needed. IP65-rated for outdoor use.
- High-quality material: Durable aluminium housing and matt glass cover provide homogeneous lighting.

A modern, multi-story building with a grey, textured facade is shown at night. Several windows are illuminated from within, showing white curtains. Two floodlights are mounted on the building's exterior, casting a warm glow on the wall. The building has a dark, horizontal-slatted roofline. In the foreground, there are dark, leafy bushes.

ENDURA FLOOD RECYCLED PLASTIC COOL WHITE

Bright. Tough. Built to last. These floodlights combine high efficiency with rugged, weatherproof design for every application.

- Design: From 10W to 150W – LED floodlights with 4000K cool white light and symmetrical 110° beam angle.
- Function: Luminous flux ranges from 1,000 to 18,000 lumens with up to 120 lm/W efficiency depending on wattage.
- Material: Weatherproof housings made of 100% recycled or die-cast aluminium with heat-conducting fins and durable safety glass.
- Application: Suitable for everything from small driveways and garages to warehouses, industrial zones and stadiums.
- Efficiency: Save up to 90% energy compared to halogen, fast payback and long service life of up to 30,000 hours.

ENDURA FLOOD RECYCLED PLASTIC WARM WHITE

Warm light meets sustainable design. For welcoming outdoor spaces that shine with efficiency and style.

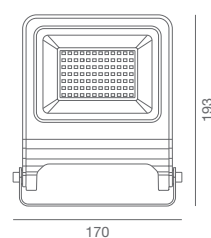

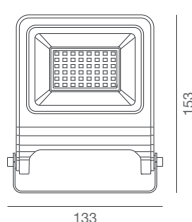

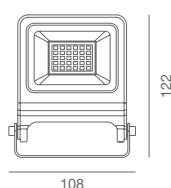

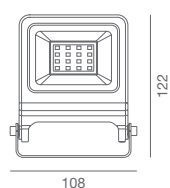

- Design: LED floodlights from 10W to 50W with warm white 3000K colour temperature and 110° beam angle.
- Function: Luminous flux from 1,000 to 5,000 lumens; ideal for architectural, hospitality, and residential lighting.
- Material: Weatherproof IP65 aluminium housing, available in dark grey or white, made from recycled material.
- Application: Perfect for terraces, facades, pathways, hotels and gardens, from private homes to commercial venues.
- Efficiency: Up to 100 lm/W; reduces CO₂ and operating costs with long lifespan and minimal maintenance.

ENERGY SAVOR A FLOODLIGHT

An energy-efficient floodlight that's easy to install and tough enough for outdoor use. Compact but capable.

- Simple installation: This lighting solution can be installed in just a few simple steps.
- Energy-saving: Thanks to modern LED technology, power consumption is low and environmentally friendly.
- Bright: A cool white light source is included – ideal for illuminating garages.
- Robust: The high IP protection rating ensures suitability for outdoor use.
- Versatile: Ideal for outdoor applications such as garages or facades.

FLOODLIGHT ESSENTIAL HIGH WATTAGE COOL WHITE

Brighten up large outdoor areas with powerful, glare-free lighting that's built to handle the elements and perform every day.

- Efficient light: Cold white light (4000K) ensures a clear, bright atmosphere – ideal for security, visibility, and functional outdoor use.
- Varied: Adjustable beam angle allows for tailored light distribution to suit different applications.
- Pleasant lighting: White satined diffuser ensures glare-free, homogeneous illumination, perfect for general lighting needs.
- Versatile: Suitable for use around sports grounds, gardens, courtyards, building entrances, and facades.
- IP65 protection: Fully sealed for indoor and outdoor use, with strong resistance to dust and water ingress.

FLOODLIGHT ESSENTIAL WARM WHITE

Soft, warm lighting that brings comfort and security to your outdoor spaces, without compromising on performance.

- Description: This LED floodlight emits a pleasant warm white light (3000K).
- Lifetime: The integrated LED module has a life of up to 25,000 hours.
- Easy installation: Quick and easy to install on the wall or ceiling.
- Application: IP65-rated for outdoor use, ideal for facades, garages and gardens.
- High-quality material: Durable aluminium and matte glass provide long-lasting, glare-free lighting.

SENSOR CEILING 360DEG IP44

Compact efficiency – indoor motion sensor for intelligent, energy-saving light control.

- Energy-conscious lighting: Detects motion to switch lights on only when needed – ideal for reducing unnecessary power consumption.
- Versatile operation: Choose between two modes – 6 hours of continuous light or motion-activated illumination.
- Discreet and practical: Compact housing blends seamlessly into interior spaces like stairwells, basements, and restrooms.
- Built for indoors: With IP44 protection and protection class II, it's designed for reliable performance in demanding environments.
- Quick to install: Straightforward setup for immediate energy-saving benefits.

SENSOR WALL 110DEG IP44

Intelligent outdoor sensing – reliable motion sensor for efficient, on-demand lighting.

- Energy-saving automation: Activates lighting only when movement is detected – ideal for reducing energy usage in outdoor and semi-covered areas.
- Targeted illumination: Perfect for corridors, entrances, garages, basements, and covered walkways where light is only needed when someone is present.
- Weather-resistant design: With IP44 protection and protection class II, it's well-suited for use in sheltered outdoor environments.
- Simple integration: Easy to install and compatible with standard outdoor lighting setups.

A woman with long brown hair, wearing a dark winter coat with a fur-lined hood and a grey turtleneck, stands in a doorway. She is holding a brown paper shopping bag. The doorway is framed by a wooden door and a light-colored wall. A warm, yellow light emanates from the doorway, illuminating the woman and the surrounding area. To the right of the doorway, on a grey wall, is a small, dark, rectangular sensor unit. In the bottom right corner, there is a small white lantern with a red candle inside.

SENSOR WALL 180DEG IP55

Precision motion detection – advanced lens optics for reliable and efficient lighting control.

- Accurate sensing: Modern lens technology ensures precise motion detection with a wide 180° coverage, allowing for flexible installation directly beside doors.
- Versatile settings: Choose between three operating modes – continuous light for 6 hours, activation on motion, or activation at dusk – to perfectly suit your needs.
- Optimized LED operation: Equipped with zero-cross switching for enhanced performance and longevity of LED fixtures.
- Durable outdoor design: Rated IP55 with protection class II, built to withstand challenging outdoor conditions.
- Ideal applications: Designed for corridors, entrances, garages, basements, and covered walkways, providing efficient lighting exactly where needed.

AMBIENCE FOR EVERY OUTDOOR SETTING LIGHT THAT SELLS ITSELF

Ready-made packages bring a wide range of elegant outdoor lighting solutions to your clients. These carefully selected product bundles enhance the appeal of your offerings and address a wide range of outdoor ambience and security needs. They provide an affordable, high-quality option for delivering distinctive and customised lighting experiences to your customers.

ATTRACTIVE SHELF DESIGN

A shelf full of choices. Experience our wide range of durable, customisable outdoor lighting options for every need, presented with built-in viewing examples.

COMPACT DISPLAYS

Appealing, informative and compact. Our eye-catching outdoor luminaire displays offer a premium presentation perfectly designed to efficiently showcase the diverse range of outdoor lighting solutions.

SYMBOLS IN THE TABLES
