

## PRODUCT DATASHEET

### OT FIT 55/220...240/1A0 CS L G2

OPTOTRONIC® FIT CS L G2 | Linear / Area Constant Current – Non dimmable

#### Areas of application

- Linear lighting for office, education, industry, storage areas and retail
- Installation in emergency lighting systems according to IEC 61347-2-13, appendix J
- Suitable for luminaires of protection class I

#### Product benefits

- Flexible current setting (DIPswitch – 4 currents)
- Lifetime: up to 100,000 h (temperature at  $T_c = 65^\circ\text{C}$ , max. 10 % failure rate)
- High efficiency
- High quality of light thanks to low output ripple current
- Fulfill safety requirement due to overload, overtemperature, Hot Plug protection

#### Product features

- Line frequency: 0 Hz | 50 Hz | 60 Hz
- Versatile scope of application due to output power range of up to 75 W
- Supply voltage: 220...240 V
- Available with output current range: up to 1,400 mA
- SELV system

TECHNICAL DATA

Electrical data

|                                          |                                    |
|------------------------------------------|------------------------------------|
| Nominal wattage                          | 66.00 W                            |
| Nominal output power                     | 21.6...53.6 W                      |
| Nominal voltage                          | 220...240 V                        |
| Nominal output voltage                   | 27...51 V                          |
| Input voltage AC                         | 198...264 V <sup>1)</sup>          |
| Input voltage DC                         | 176...276 V                        |
| U-OUT (working voltage)                  | < 60 V                             |
| Nominal output current                   | 800 mA / 900 mA / 975 mA / 1050 mA |
| Inrush current                           | 20 A                               |
| Output current tolerance                 | ±7,5 %                             |
| Output ripple current (100 Hz)           | < 5 %                              |
| Mains frequency                          | 0/50/60 Hz                         |
| Total harmonic distortion                | < 10 %                             |
| Power factor λ                           | 0.98                               |
| ECG efficiency                           | ≤89 %                              |
| Device power loss                        | 7 W                                |
| Max. ECG no. on circuit breaker 10 A (B) | 16                                 |
| Max. ECG no. on circuit breaker 16 A (B) | 25                                 |
| Max. ECG no. on circuit breaker 25 A (B) | -                                  |
| Surge capability (L/N-Ground)            | 2 kV                               |
| Surge capability (L-N)                   | 1 kV                               |
| Galvanic isolation                       | SELV                               |
| Flickering metric (Pst LM)               | ≤1                                 |

1) Permitted voltage range

Photometrical data

|                                 |      |
|---------------------------------|------|
| Flickering metric (Pst LM)      | ≤1   |
| Stroboscope effect metric (SVM) | ≤0.4 |

Dimensions & Weight

|                                      |                           |
|--------------------------------------|---------------------------|
| Length                               | 280.00 mm                 |
| Mounting hole spacing, length        | 270,0 mm                  |
| Width                                | 30.00 mm                  |
| Height                               | 21.00 mm                  |
| Cable cross-section, input side      | 0.5...1.5 mm <sup>2</sup> |
| Cable cross-section, output side     | 0.5...1.5 mm <sup>2</sup> |
| Wire preparation length, input side  | 8.5...9.5 mm              |
| Wire preparation length, output side | 8.5...9.5 mm              |
| Product weight                       | 217.00 g                  |

### Colors & materials

|                 |       |
|-----------------|-------|
| Casing material | Metal |
| Body material   | Metal |

### Temperatures & operating conditions

|                                          |                        |
|------------------------------------------|------------------------|
| Ambient temperature range                | -25...+50 °C           |
| Maximum temperature at tc test point     | 80 °C                  |
| Max.housing temperature in case of fault | 110 °C                 |
| Permitted rel. humidity during operation | 5...85 % <sup>1)</sup> |

<sup>1)</sup> Maximum 56 days/year at 85 %

### Lifespan

|              |                                  |
|--------------|----------------------------------|
| ECG lifetime | 50000 h / 100000 h <sup>1)</sup> |
|--------------|----------------------------------|

<sup>1)</sup> At maximum T<sub>c</sub> = 75°C / 10% failure rate / At T<sub>c</sub> = 65 °C / 10 % failure rate

### Additional product data

|              |    |
|--------------|----|
| Encapsulated | No |
|--------------|----|

### Capabilities

|                                        |                      |
|----------------------------------------|----------------------|
| Dimmable                               | No                   |
| Overheating protection                 | Automatic reversible |
| Overload protection                    | Non-reversible       |
| No-load proof                          | Yes                  |
| Short-circuit protection               | Automatic reversible |
| Max. cable length to lamp/LED module   | 2,0 m                |
| Suitable for fixtures with prot. class | I                    |
| Suitable for emergency lighting        | Yes                  |
| Type of connection, output side        | Push terminal        |

### Certificates & Standards

|                           |                                                                                                                                   |
